VINIS

Intelligent Video Alliance

intelligent security for the connected world

cutting edge, secure IP CCTV

break-through solutions for key verticals

Safe Cities
VNS offers Safe City security solutions that promotes shared infrastructure, multi-agency collaboration, real-time information through sensors, video surveillance, facial recognition, data analytics and automated processing of information to

Govt. & Law Enforcement
VNS offers a strong portfolio of cyber secure systems and integrated video surveillance solutions for government and law enforceme where robust, intelligent syst ate 24/7 in all lighting condit

Hotel & Hospitality
VNS offers best value for money bespoke solutions for hotels and leisure facilities. To address the fundamental challenge of rising cost for Hotelier who must continue to enhance security for their guests and premises as required by law.

Transportation/Mobile
VNS TransPorter Mobile CCTV offers state of the art security solutions for Transportation sector with live video integrated with vehicle information for improved security and efficiency of their assets on the road.

ATM & Banking
VNS Retail Banking Solution offers ATM operations an extra layer of security to prevent ATM related crimes through advanced analytics and secure integration of ATM transaction with video.

Retail Business
VNS Retail Solution provide retailers useful customer information ensuring sensitive privacy regulations are met. By using surveillance infrastructure for business purposes, VNS can positively impact retailer ROI.

Bullet Camera
2-8 MP Indoor/outdoor Bullet, 2.8-12mm motorized lens, 30M IR, triple streams, DWDR, POE.

Bullet PTZ
2 & 4 MP Indoor/outdoor PTZ Bullet, 2x optical zoom, 100M IR, triple streams, WDR, POE.

Mini PTZ Dome
2 & 5 MP Indoor Mini PTZ dome, 5x optical zoom, 2.7-13.5mm lens, triple streams, 30M IR distance, POE.

Speed PTZ Dome
2-12 MP Super WDR XLight Series camera, professional-level network camera, with rich functions and superior image quality, meets various applications.

Fixed IP Dome
2-8 MP Fixed Dome with built in 30M IR, triple streams, 2.8-12mm Motorized Varifocal lens, Options for Micro SD card, Alarms IP67 & IK10.

IR Mini Dome
2-4 MP IR Mini Dome, H.265 video codec to achieve higher compression while maintaining high quality pictures at lower bandwidth.

Fish Eye Camera
360 deg panoramic dome camera, 4-12MP, H.265, 10M IR range, indoor/outdoor, 3D DNR, for retail, hospitality & banking.

TransPorter MDVR
4-8 Channel TransPorter mobile DVR with military grade anti-vibration technology.

Servers
Specialized VMS and storage servers optimized for HD surveillance. Fastest performance, biggest storage and most resilient. Upto RAID 60.

NVR
4-128 channel NVR, 2 & 4 network interface, Support HDD hot swap with RAID 0, 1, 5, 6, 10 storage scheme configurable, Redundant power supply option and ANR technology to enhance the storage reliability when the network is disconnected.

Security Switches
Made for Video with embedded cyber security, active camera tracking, jumbo frame transmission & PoE consumption control. Trigger points can raise flags with SNMP traps if consumption is increasing and much more.

innovation so advance
that it's simple & self learning...

Intelligent Video Alliance

Video Network Security has taken the initiative in alliance with our IVA – Intelligent Video Alliance platform partner Netavis Software GmbH in offering an innovative and deeply integrated analytic based solution that is not only holistic, scalable, open and intelligent but simple to use for non-technical staff and operators to ensure maximum utilization and best results.

Our IVA integrated intelligent VMS solution can serve as a unified platform, so multiple systems can be monitored and managed from one location at the campus and from a remote management center to optimize resources. This design also ensures there is no single point of failure, while raising alerts for rapid response to authorized personnel and entities in multiple locations.

VNS

VNS offers the best combination of smart hardware and software to create tailored, intelligent solutions for key industry verticals.

Extremely robust field sensors (HD IP, 4K, Fisheye, 360, Thermal Fever Detection and PTZ), Servers/NVRs & accessories with industry breakthrough technologies, XLight, H.265+Vcom & VIR. Full scalability of hardware & software. Innovative StellarVu CMS designed for mega projects & extensive management dashboards.

Netavis sMart Data Warehouse option transforms security and business data into valuable information by collecting and storing data from diverse data sources including iCat video analytics to produce actionable intelligence like number of customers coming in and out, customer interest level, determination of sexes, heat maps, conversion rate and extensive graphical data without violating any privacy or local laws. The business intelligence produced by our AI engine is used for enhancement of overall business intelligence, targeted marketing initiatives and improving efficiency of customer operations.
